

## ABOUT VALLABH VIDYANAGAR

Vallabh Vidyanagar today has emerged as an active educational hub in the western part of India. It has established its distinct identity in the sector of education by offering numerous innovative educational programmes and by attracting students from across the globe.

## CHARUTAR VIDYA MANDAL

CVM was established to bring about the social awakening, social upliftment and enrichment of society. The uniqueness of CVM lies in its ability to use quality education as a powerful means of social transformation. Today more than 40 institutions are working under CVM, leading towards the goal of founders of CVM.

## THE INSTITUTE

Established with a goal to meet the needs of industries in Gujarat and beyond, Charutar Vidya Mandal (CVM) started G. H. Patel College of Engineering and Technology (GCET) in 1996. GCET was the first self financed institute in the state Gujarat. GCET ranked among top 100 engineering college across country (outlook '06). Today GCET offers under graduate degree programmes in seven disciplines and post graduate degree programme.

## THE DEPARTMENT

GCET was the pioneer in India to appreciate the importance of Information Technology and established a four year bachelor degree programme in 1996-97. The graduates have found remarkable placements in prestigious national and international companies and many are pursuing their higher studies from premier institutes in India and abroad. A large number of research papers are published by the faculty members every year in well known International Journals and Conferences.

## OBJECTIVES

The objective of the conference is to give a strategic and technical direction to the field of advance computing. The teachers, researchers, professionals and students are becoming passionate about the subject. Due to increasing complexity and size of problems the importance of this area has grown tremendously. The problems which were out of bounds to the computer scientists are now being solved using advance computing technologies. It has opened the flood gates for new research and innovations.

NCAC09 will provide a stimulating forum for hundreds of academicians, scientists, engineers and students from all over the country to disseminate their new research findings and exchange information on emerging areas of research in the fields.

The papers are invited on following themes but not limited to:

- AI and Optimization Techniques
- Wired/Wireless Networks and Security
- Data Mining, Image Processing and Language Processors
- Software and Web Engineering

## CALL FOR PAPERS

The papers based on the original research or practical work and novel ideas of the authors should be contributed to the conference. The size of papers should not exceed 10 A4 size papers in IEEE MS Word format. An abstract should not exceed 150 words. Papers offering insights into future trends on evolution of computing frameworks are welcome.

The final paper formatted in camera ready copy should be submitted by email to [ncac09@gcet.ac.in](mailto:ncac09@gcet.ac.in). The selected papers will be published in the proceeding of the conference. Formatting details and IEEE format is available on website.
