

### ELECTRICAL ENGINEERING DEPARTMENT

#### Alumni Talk

**Name of Alumni:** Ankur Mishra (07EE)

**Date of Talk:** 15/02/2017

**Venue:** A-118

**Topic:** Protection Schemes for Power Distribution System with Distributed Generation.

Department of Electrical Engineering has organized an alumni talk for 3<sup>rd</sup> year students. Mr. Ankur Mishra, presently pursuing Ph.D at University of Auckland, New Zealand, delivered a very informative lecture on the topic “Protection Schemes for Power Distribution System with Distributed Generation”.

The speaker explained the protection schemes and its importance in the power distribution system with distributed generation penetration. He also discussed how to select the inverter rating for various operating conditions.
