

ELECTRICAL ENGINEERING DEPARTMENT

Alumni Talk

Name of Alumni: Ankur Mishra (07EE)

Date of Talk: 17/02/2017

Venue: A-118

Topic: Distributed Generation

Department of Electrical Engineering has organized an alumni talk for 2nd year students. Mr. Ankur Mishra, presently pursuing Ph.D at University of Auckland, New Zealand, delivered a very informative lecture on the topic “Distributed Generation”.

The speaker discussed about the various distributed generation sources and their impacts on power system. Also, he explained how to select the inverter rating in various conditions. He explained the importance of solar energy sources and its integration with power distribution network and related issues.
