

G H Patel College of Engineering and Technology
Department of Computer Engineering
PROJECT FAIR-2014

Computer Engineering department, G H Patel College of Engineering & Technology organized a Project Fair on **23rd April, 2014**. The event was organized by Prof. Kinjal V Joshi, Assistant Professor, Computer Engineering department, GCET.

Schedule of the event: i) Meeting of faculties and industry expert, ii) Evaluation of projects by industry expert, faculties and students, iii) Selection of best three projects by panel and result declaration and iv) Feedback and new project ideas for pre final year students from expert.

Total **62** students had visited the fair and **30** projects were presented by **57** final year students.

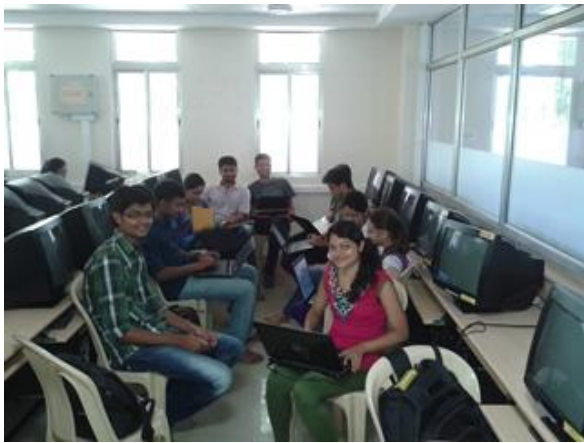

Mr. Malay Gopani from System Level Solutions, Vallabh Vidyanagar was invited as a judge. Prof. Kinjal V Joshi and Prof. Hetal V Gaudani were also the members of judging panel. Best three projects named i) Automation in Indian Postal System by Mehul Gupta and Ankita Patel ii) Home Automation for Electric Devices by Saurabh Vora and Swati Todarmal and iii) Real Time Analysis of Cloud Database by Vivekanand Sharma and Jigar patel were selected.

Pre final year students got good guidance for next year project. They had given nice feedback about the event that this event will be very useful to them for deciding next year project definition.
