

Seminar Report

The Department of Information Technology, G H Patel College of Engineering and Technology organized a seminar on “Pencil: A tool for UI/UX Design” on Saturday, 23rd February 2019. The event was coordinated by Prof. Bhargesh Patel.

The seminar was delivered by Mr. Shashank Nanda, Lead Analyst, Cygnet Infotech, Ahmedabad. His areas of expertise are SDLC, Wireframe Mockup and BI Analytics. He has delivered expert talks and workshops on said areas at reputed institutes of the state.

20 students of the third year, 3 students of M.E and 7 faculty members of Information Technology Department were benefitted by this seminar. The expert discussed the benefits of Pencil tools for designing UI for clients. He also made aware students about importance of analysis and design of system with respect to industry aspects. The real time demonstration of pencil was shown with sample examples.

This seminar will be definitely helpful to the students to discover further in Designing UI/UX.

Overall nice but hands-on will definitely create more impact about the same.anyways I really enjoyed it .

Definitely useful for students for project purpose, and it must be followed according to industry standard so that, students will have basic idea of working environment of Industry.

It will helpful to students to prepare their plan for project.

This seminar was very useful for third year students because next year they will have project and in design phase pencil tool will help them a lot to express their design ideas.

Expert (Mr. Shashank Nanda) was very good trainer and the session was very interactive and knowledgeable.
