

Industrial visit report

25/02/2019

Erhardt+Leimer (India) Pvt. Ltd.

Ahmedabad,

In time: 11:00 a.m.

Out time: 2:00 P.m.

On the 25th of February, we had organised an industrial visit to **Erhardt+Leimer (India) Pvt. Ltd.** , Ahmedabad which is basically into many industrial works like textile, graphics, paper, tyre, plastics etc. The visit started at around 8:00 am. We reached the industry at around 11:00 am and first we started our visit with the electronics section where we saw different microcontrollers and processors, then we went through different CNC machines and lastly we saw the different measuring instruments and the assembly section of all the products they make. The company has its roots in more than 15 countries and is also a world leader in web control and web inspections. Their reliable products and solutions support manufacturers in the textile, paper, corrugated card, printing and tire industry in the efficient design of their production processes. The visit was a great experience and also very helpful to all the students and as a courtesy they also served us lunch in their canteen. Overall it was a great visit filled with new and important information. We thank the industry as well for giving us the opportunity to come and see all the different industrial sections and their working.
