

Report on Online Soft Skills Quiz

Budding technocrats need to touch not only technical skills but also non technical skills as basic requirements for the placement. Here, to bridge this gap of students, language faculties of G H Patel college of Engineering and Technology has prepared an online soft skills quiz for 2nd and 3rd year students of BE,GCET. Language proficiency, verbal reasoning, logical reasoning and general knowledge were the incorporated segments of this quiz. It was held in the second week of September, 2020 through digital platform (Microsoft Teams). Approximately 200 students were benefited as participants and they came to know about their loops where they need to work out.

The objectives for designing this quiz was to make them aware about upcoming placement scenario and types of questions which are normally asked in several competitive exams, hence they can get a basic idea to prepare with such type of examination. Mere, technical skills do not make them an overall Engineer. Communication skills are also play a vital role in their academic and professional career.
