

Civil Engineering Department of G H Patel College of Engineering and Technology (GCET), Charutar Vidya Mandal institute, VallabhVidyanagar, organized a soft skill development programme on 12th December, 2019. This was specially organized for the first year of Civil Engineering students. Soft skills play an important role in resume writing, interviewing and finding success in communicating with people at work. Soft skills are often transferable across careers and industries. Effective communication skills will be helpful through the interview process and in your career. The ability to communicate involves knowing how you should speak to others in different situations or settings. With this aim, we have organized debate of various topics like “Is mobile is an effective tool to build minds of students ?” and “Artificial intelligence vs human intelligence” for first year civil engineering students. Total 33 students were participated in these program. This program helps students to improve their communication skills which will be helpful in campus placement process.
