INTRODUCTION

Department of Computer Engineering in association with GCET ISTE STUDENT CHAPTER had organized a college-level webinar on the topic "Introduction to Python Programming" on 25th May, 2020.

The webinar was hosted and coordinated by the Prof. Namrata Dave.

The event had an overwhelming response of 48 participants.

The event contributed in creating technical environment and boosted the minds of enthusiastic participants in this field.

The student co-ordinators for the event were Harsh Mehta and Janvi Garg.

ABOUT THE SPEAKER

Prof Namrata Dave obtained Master in Computer Engineering from Gujarat Technological University and Bachelor in Computer Engineering from Dharamsinh Desai University.

She is involved in teaching courses at both Under Graduate and Post Graduate Level.

Prof Dave's main research interest includes Image Processing, Speech Processing, Machine Learning and Computer Vision.

She has published many research papers in conferences and reputed International and national journals.

ABOUT THE WEBINAR

Python is a much talked about programming language nowadays.

The webinar commenced with a warm introduction to the speaker, Prof. Namrata Dave by the student co-ordinators.

Prof. Namrata Dave started the webinar with the history of the programming language, Python and how it came into existence.

Then she explained various basic topics: basic syntax, data types and control statements.

She also had hands-on session, so that the participants could visualize the concepts more properly.

This main purpose of the event was to provide students with information about the programming language, Python. This webinar helped participants in improving their technical knowledge.

On the whole the event was a great success due to the hard work of the co-ordinators involved.
