

REPORT ON ALUMNI TALK

By
DHRUVESH PATEL, 2016 Mechatronics Graduate

06 Jan 2020

Today, 3rd year mechatronics students were introduced with our alumni, Dhruvesh Patel. He had completed his MS, MECHANICAL from Texas USA. Presently he is working in USA as a design and manufacturing engineer. He shared his college life with students and culture of USA colleges. The importance of hand on Experience, making hobby projects and giving technical Workshops would help him in making a strong carrier, was discussed with students. He describes the importance of team work and how to balance academics & co curricular activities. Overview of the company's requirements was also shared by him, like Software used in Industries and the role of management etc. How to improve Communication Skills, How to take advantages of Online Courses are motivated students to do that. The most informative was about Selection of the Country as well as the courses.
