Dr. Ketan Tamboli

Dr. Samir Trapasiya

Prof. Rohit Parmar

Prof. Mayank Ardeshana

Prof. Parthesh Mankodi

Provide a platform to nourish grass root innovation and bring to light those who are creating something new and useful that solves real-world problems, thereby enabling an environment where people develop the capacity to generate their own livelihood and be self-employed in this era of start-ups and individual endeavors. Through sustained efforts we wish to help foster a culture of innovation and contribute towards our dream of building a better and advanced nation.

Maker Fest is the Indian continuation of Maker Faire. Launched in California in 2006, now there are over 200 Maker Faires around the world with hundreds of thousands of people attending. It is a showcase of invention and creativity that brings together tech enthusiasts, crafters, educators, tinkerers, food artisans, hobbyists, engineers, science clubs, artists, students, and commercial exhibitors. Makers come to show their creations. Attendees come to glimpse the future and to learn to become makers themselves.

Maker Fest Vadodara presents a networking opportunity with like-minded maker community, receive guidance from mentors who can guide on the way forward and get the idea or product validated by visitors. Makers also get the opportunity to interact with invited mentors and incubation centers, get product/idea validation of the creations and stay connected with them for a longer association. Makers also get to pitch their ideas and present their concept or product on stage.

The visit to Maker Fest 2022 at MSU Baroda was organized by EC department in association with SSIP-GCET. We have started our journey at 9:00am from institute and reached at Maker Fest at 10:00. We have joined the inauguration session of Maker Fest. The Maker Fest visit began at 11:00 AM. We have visited around 50 stalls.

SCHEDULE:

Visit Maker Fest 2022
