

23rd July 2022

Report on A Gateway to E-Infochips

An Alumni Talk titled A Gateway to e-Infochips was held at the Smt K S Patel GCET Auditorium

- Seminar Hall GCET on 23rd July 2022 from 2 PM to 4 PM , organized by Department of Electronics & Communication Engineering in association with ISTE Student Branch and GCET Alumni Association, and Coordinated by T&P Cell Faculty & Student Coordinators of the Department. The session was organized for the third and final year students of the Electronics & Communication Engineering. The session was start with the introduction of the Alumni Prof.

Parthesh Mankodi gave the brief introduction of the Anupam Kanungo, Deep Vekariya, Ajaysinh Jadeja, Sneh Choksi, this event was in the semi-virtual mode as all four of them were joined from the M.S teams.

The talk begins with introduction to the E-infochips like there were two departments one is ASIC(Application Specific Integrated Circuit) based and second one is PES(Product Engineering Service).

They also gave the idea of the selection process like how many rounds were there and what type of question were asked in test as well as in the interview they also suggested some websites and books to refer at the time of selection process. In between the participants were also asked certain question and query and get the perfect solutions from the speakers.

At last Prof. Parthesh Mankodi and Prof. Rohit Parmar ends the session with a thanking note.

It was a well-organized event and the crowd who witnessed the programme feels informative and motivated towards their way to E-infochips and praised the organization.
