G H Patel College of Engineering and Technology (GCET) in collaboration with the International Society Of Automation (ISA) GCET Student Section and Department of Information Technology GCET, organized a one-day industrial visit to eInfochips, Ahmedabad on 16th August, 2024. This visit was organized for students of 3rd year CSE(IoT) and 4th Year IT and CSE (IoT). A total of 41 students from the Information Technology and Computer Science & Engineering (IoT) branch with 7 faculty members had participated in this visit.

➡ **Objective:**

The main objective behind the visit was to make student aware about how various activities related to are carried out in company.

➡ **Outcome/Benefit:**

eInfochips (An Arrow Company) is a VLSI based product engineering and software R&D services company with over 20 years of experience, 500+ product developments, and over 40M deployments in 140 countries across the world. It is having partnership with global market leaders like Microsoft, ARM, Qualcomm, Intel, cadence, Xilinx, etc. The company's service offerings include digital transformation and connected IoT solutions across various cloud platforms, including AWS and Azure.

In the First phase, Mr. Hemal Shah at eInfochip gave an overview of the company. He explained about the strength of the company, working criteria, and history of the

company. He also gave the information about the partnership firms. The company is working with diversified domains such as Aeronautics, Medical, Automotive, Home Automation, Industrial Automation, semiconductors, security and surveillance and Transport and Logistics. He gives the information about the growth of the company over the years. Their clients are Siemens, Collins Aerospace, Cisco, Bosch, Qualcomm, Bose, etc. He explained different job profiles and career opportunities in each and every domain. He motivated the students to opt for a career in this stream. He gave us a brief idea about how software and embedded projects develop inside a company. Lastly, He asked some questions and answers from students.

In the Second phase, Students visited Experience Zone, an exhibition of different products designed by eInfochips Ltd. They demonstrated working products developed by eInfochip in various domains such as Home Automation and Health care, IoT Devices, Cloud and connected devices, Aerospace, Security, Surveillance and access control, and VLSI chips.
